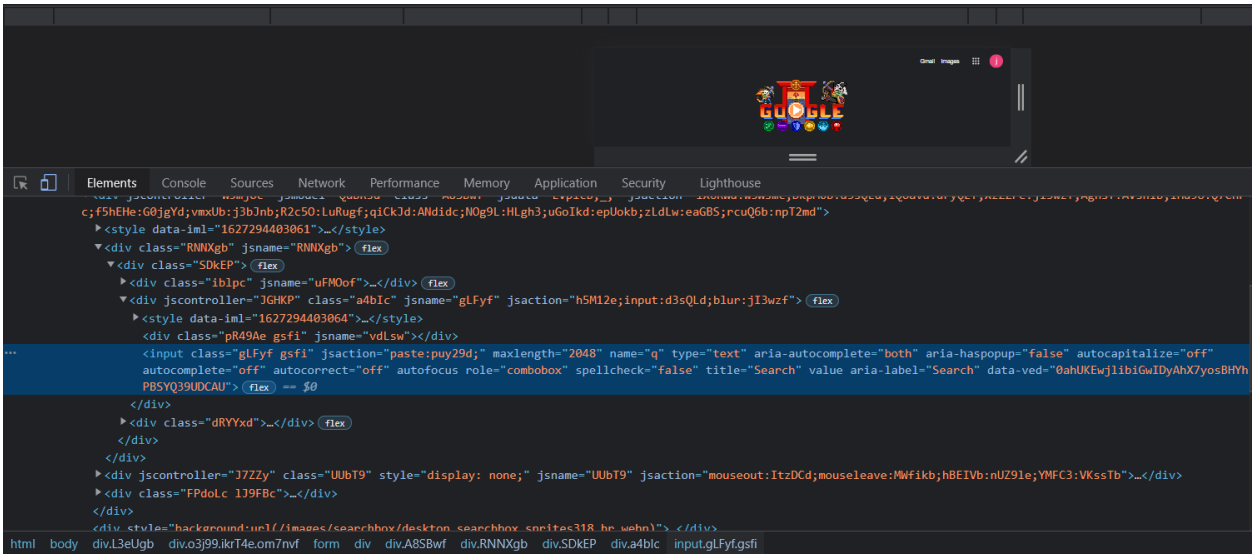
Task 1

Perform google search using cypress.

1. Visit google.com
2. Get the selector for search bar.

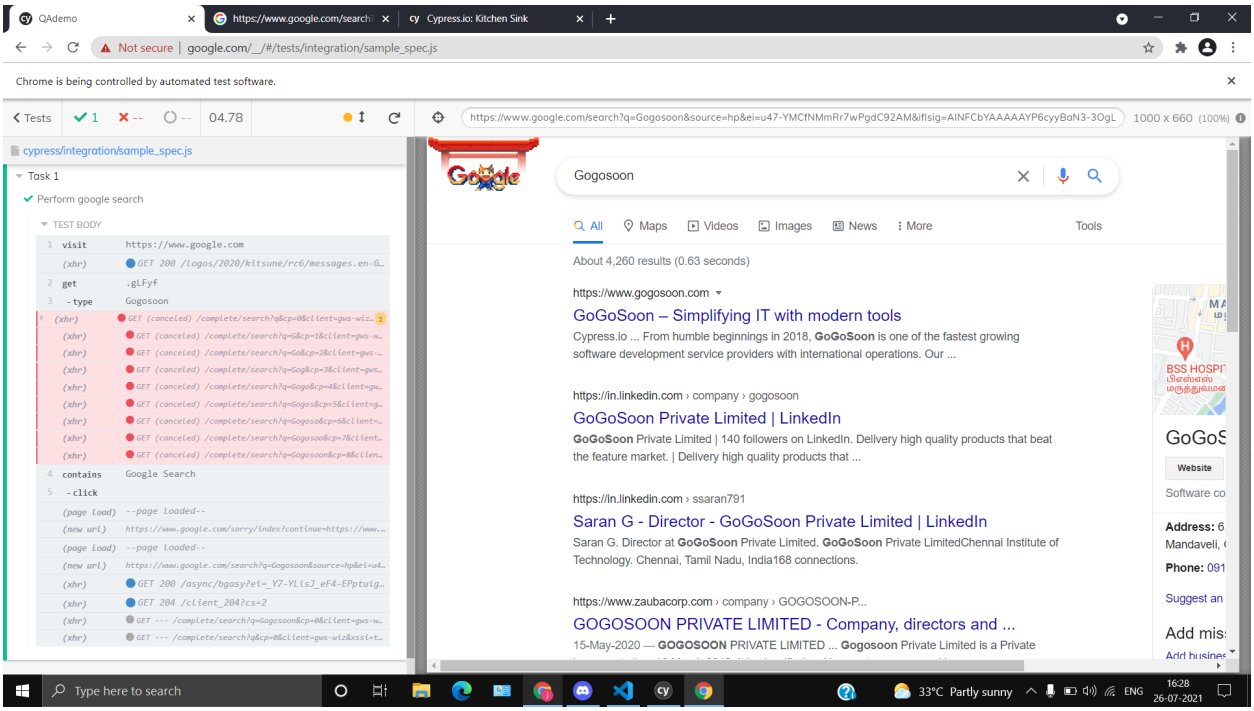


Getting the class selector for the search bar(**class="gLFyf"**)

```
cy.get('.gLFyf')
  .type('Gogosoon')
```

1. Fetch the Google Search button using cy.get and perform click action

Output:



QAdemo
https://www.google.com/search
Cypress.io: Kitchen Sink
Not secure | google.com/__/#/tests/integration/sample_spec.js
